Our Venturi Technology improves the quality and performance of your shower experience on unequal pressure.

The Venturi works by using high pressure cold water to draw low pressure hot water at an increased rate, providing a balanced and satisfying shower on unequal water pressures.

Supplied with 3x Venturi Jets for optimal unequal pressure

GREEN VENTURI JET 20 - 35kPa

Recommended for 20 - 35kPa hot water supply

YELLOW VENTURI JET 36 - 75kPa

Recommended for 36 - 75kPa or greater hot water supply

RED VENTURI JET 76 - 130kPa

Recommended for 76 - 130kPa or greater hot water supply

NOTE: Felton supplies the mixer set up for Mains Pressure WITHOUT Venturi Jets installed
